Spanset UK		
XI Training	TARF1	
8point8		

5 Point of Contact

If you have any queries regarding the above mentioned list or would like to have your training syllabi reviewed by Arqiva to become an accepted training provider then please contact the Safety, Health and Environment Department on the following email address: messagefromtheshed@arqiva.com.

We will only review a new training provider syllabus if a request has been made by a company that shows which companies will be utilising the training. The review process can take up to one month to complete. The training company will be expected to provide full details of their course including any presentations, lesson plans, handouts, course notes and descriptions of any practical elements. Failure to provide the full information may result in delays to your application.

New accepted courses will be added to the above list once they have been reviewed by the Arqiva Safety, Health and Environment Department.
